Norbro

*Series 40R Pneumatic Actuator  
Double Acting or Spring Return*

Since the mid-Sixties the Norbro name has been recognised as the leading quarter turn actuator for industry.

As proof of this, Norbro pneumatic actuators can be found in a range of applications as diverse as the petrochemical industry, food and beverage, steel production, pharmaceuticals and plastics manufacturing.

From the very beginning Norbro has been dedicated to providing high performance actuators which combine reliability, long life and ease of maintenance with operational **safety** and a modular design concept which allows simple attachment of a variety of ancillaries to match customer requirements.

With the latest design of the Norbro Series 40R, all of these factors add up to providing you with the finest pneumatic actuator available today.

## Other Features and Benefits

Large range of sizes

**Failsafe operation in a fire**

Option for reversible direction of operation

No special tools required for maintenance

Standard operating temperature range of -20°C to +100°C

All parts sealed and greased for life

– For more efficient torque matching

– **Polished support rods retain fire-safe capability even if bearings are fire damaged**

– For failsafe open capability on butterfly valves

– Simple to maintain

– Increased applications

– No lubricated air supply required

## Operating Principle

The Norbro 40R pneumatic actuator is based on the opposed double rack and pinion principle utilising piston support rods to minimise friction and wear between pistons and body bore.

In the double acting model, compressed air is applied to Port 1 which is fed via the large bore support rod into the centre chamber. This forces the pistons apart and turns the actuator's output drive anti-clockwise (seen from above) for valve opening, simultaneously venting the air in the end chamber via the second support rod through Port 2. This operation can then be reversed by supplying air into Port 2 for clockwise rotation (valve closing).

With the fail-safe spring return model, air is applied in a similar way to Port 1 for anti-clockwise operation (valve opening) and this position will be maintained until air pressure is released when spring force closes the pistons together for clockwise operation (valve closing).

NOTE: With the size 05 actuator, air is supplied and vented through the body of the actuator as its compact size makes the use of support rods impractical.

**Parts List / Materials Specification**

Item No.	Description	Material/Finish
1	Body	Aluminium (Extrusion) Anodised
2	Pinion	Carbon Steel (Corrosion Resistant Coated)
3	Pistons	Aluminium
4	End Caps	Aluminium Anodised
5	Support Rods	Stainless Steel
6	Bearings	Acetal
7	'O' Rings	Nitrile Rubber
8	End Cap Screws	Stainless Steel
9	Springs	Chrome Silicon Steel (Corrosion Resistant Coated)
10	Position Indicator	Polyethylene

## Actuator sizing

There are twelve sizes of Norbro double acting or fail safe spring return pneumatic actuators providing a torque range of 11 to 4617 Nm (at an operating pressure of 5.5 bar). This enables efficient and therefore economical torque matching.

The torque tables detailed below provide actual torque values for the range of actuators at typical pressure and spring configurations.

**When sizing a valve, we recommend that a factor of safety is applied to its nominal torque.**

Alternatively, for more comprehensive sizing calculations, the Norbro/Worcester Actuator/Valve sizing program should be used (available on request).

### Torque output (Nm) – Double Acting Actuator

Size-Series	OPERATING PRESSURE (bar)										
	2.0	2.5	3.0	3.5	4.0	4.5	5.0	5.5	6.0	7.0	8.0

\*When using one spring per end-cap, the larger outer spring should be used.

Air pressure below 5.5 bar will not normally be sufficient to compress the full set of springs in each end cap. For lower air pressures the number of springs must, therefore, be adjusted. (IMPORTANT: Refer to Norbro 'Installation, Operating and Maintenance Manual' or to our Sales Office for details.)

## Operating Conditions

<b>Pressure Limitation</b>	8.3 bar Maximum. For higher pressures contact our sales office.	<b>Travel (all sizes)</b>	Average 92° total travel including nominal 1° overtravel both clockwise and anti-clockwise.
<b>Media</b>	Air or non-corrosive fluid	<b>Extended travel option</b>	180°, 120° - Series 33. For further options consult the Sales Office.
<b>Temperature range</b>	Standard -20°C to +100°C Low temperature variant -40°C to +85°C High temperature variant -20°C to +150°C	<b>Adjustable travel stop</b>	Option available to adjust actuator stroke through 20° from each end of travel.
<b>Rotation (viewed from the top)</b>	Pinion rotates anti-clockwise when the centre chamber supply port (RHS) is pressurised (see Page 4)	<b>Hydraulic operation</b>	Complete range available for operation with hydraulic fluids at pressure, temperature and torque conditions corresponding to normal air supply.

## Operating Speeds (Seconds) – Actuator with no load – using Solenoid Control Valve – 5.5 bar

Size-Series	05-40R	10-40R	15-40R	20-40R	25-40R	30-40R	33-40R	35-40R	40-40R	42-40R	45-40	50-40
Double Acting open and close	0.2	0.2	0.3	0.4	0.7	1.0	2.1	2.4	3.7	6.0	7.0	12.0
Spring return spring stroke (Closed)	0.1	0.2	0.3	0.5	0.6	1.1	2.1	2.6	4.1	7.2	9.0	15.0
Spring return air stroke (Open)	0.1	0.2	0.3	0.5	1.0	1.2	2.5	2.8	4.9	8.9	12.0	21.0

Speeds other than those given above are obtainable if required by using additional control equipment.

**Note:** These times for the actuator are typical and can vary under actual operating conditions. They are given as a guide only.

## Air Consumption per stroke – Actual Volume – Litres

Size-Series	05-40R	10-40R	15-40R	20-40R	25-40R	30-40R	33-40R	35-40R	40-40R	42-40R	45-40	50-40
Anti-Clockwise	0.05	0.17	0.35	0.69	1.22	1.86	3.39	3.93	6.73	12.0	13.51	23.87
Clockwise (D.A. only)	0.05	0.22	0.39	0.74	1.31	2.05	4.79	5.54	8.19	13.89	20.0	30.5

To obtain Free Air Displacement (FAD) Volume, multiply actual volumes by absolute working pressure (bar A).

## Weight – Kgs

Size-Series	05-40R	10-40R	15-40R	20-40R	25-40R	30-40R	33-40R	35-40R	40-40R	42-40R	45-40	50-40
Double Acting	0.7	1.3	2.7	4.5	7.4	11.0	22.5	26.0	43.6	71.8	97.0	138.0

## Accessories and options

Worcester's V-Flow control valve incorporating the 40R actuator provides precise and flexible performance when modulating flow. Further information on this product is available on request.

A wide range of ancillary equipment can be fitted to meet the most exacting customer requirements. This is an area where Worcester has considerable experience and we would be pleased to discuss any process problems.

- **Geared Override**

A retro fittable gearbox is available for manual operation of the valve when power is lost.

- **Fast Acting**

Modifications for quicker opening/closing speeds.

- **Protective Coatings**

Various coatings (eg Epoxy, PVC, etc.) are available for marine, hygienic and spark inhibition applications.

## Mounting Configurations (all dimensions in mm)

### TOP MOUNT INTERFACE

Namur (VDI/VDE 3845) mounting configuration facilitates the fitting and interchangeability of all types of top-mounted ancillaries.

Size-Series	Pitch - Height
05-40R	—
10-40R	80 x 30 - 20 H
15-40R	80 x 30 - 20 H
20-40R	80 x 30 - 20 H
25-40R	80 x 30 - 30 H
30-40R	80 x 30 - 30 H
33-40R	80 x 30 - 30 H
35-40R	80 x 30 - 30 H
40-40R	130 x 30 - 50 H
42-40R	130 x 30 - 50 H
45-40	130 x 30 - 50 H
50-40	130 x 30 - 50 H

## END MOUNT ACCESSORIES

Norbro's unique end-mounted J-switch enclosure is suitable for any standard 40R actuator (except size 05).

Namur (VDI/VDE 3845 pattern) interface allows direct end-mounting of solenoids (all ports are G<sup>1</sup>/<sub>4</sub> except size 05 and 10 which are G<sup>1</sup>/<sub>8</sub>).

## OUTLINE SPECIFICATIONS (For detailed information refer to General Arrangement drawings, available from Sales Office)

		P1 = 20	
		P2 = 16	
		P4 = 12	
		P3 = 8	

## Variants

Norbro's Series 61 two-stage actuator is designed for drum filling applications.

The Series 33 180° actuator provides the perfect solution for Worcester's range of multi-ported valves.
